

ST. PAUL HANDBOOK 2012-2013 School Year

This Parent Handbook has been prepared to help you become more knowledgeable of the purposes and procedures at St. Paul the Apostle School, and to support and create an ever closer relationship among students, parents/guardians, teachers, and administration. It details policies that serve as a guideline to the daily operation of our school. However, policy statements are necessarily general, and the administration reserves the right to (1) make specific applications as the circumstances arise, and (2) amend the handbook as necessary throughout the year.

St. Paul is a part of the Joliet Diocese School system. The Handbook of Policies of the Joliet Diocesan School System is the basic guideline under which this and all Catholic schools in the Diocese are administered. Diocesan policies change and are up-dated from time-to-time. As a result, this Parent Handbook may conflict with strict Diocesan policy. Therefore, when there is a question of policy or procedure that is in conflict between this Parent Handbook and the Handbook of Policies of the Joliet Diocesan school System, the Handbook of the Joliet Diocesan School System will control.

We ask that you read your parent Handbook carefully and reference it during the school year. In particular, all parents/guardians are asked to review the sections on Student Dress Code and Technology Acceptable Use Policy as it relates to School Computer Network and internet usage. It is hoped that it will serve as a helpful guide to those devoted to the education of the children of our school.

We ask that you sign the form stating that you have read the complete handbook and agree to abide by its contents.
